A TCO Analysis for an eCommerce Company on Azure

The Company

World-class online vendor of consumer products

Lightbits worked with an online vendor to calculate how much they'd save with Lightbits on Azure.

#1

Online vendor in product segment in huge market

27%

Annual growth rate of online sales in this market region

The Challenge

Controlling cloud costs during double digit growth

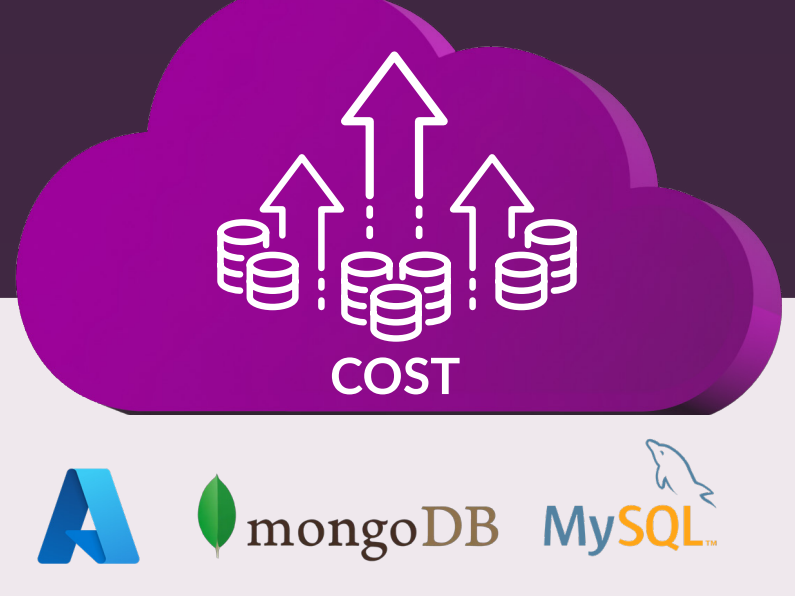

The company needed to cut cloud costs and put that money back into the business to sustain their growth targets.

Company's Existing Cloud Environment

Multiple databases running on Azure

800 Azure DS16 VM instances

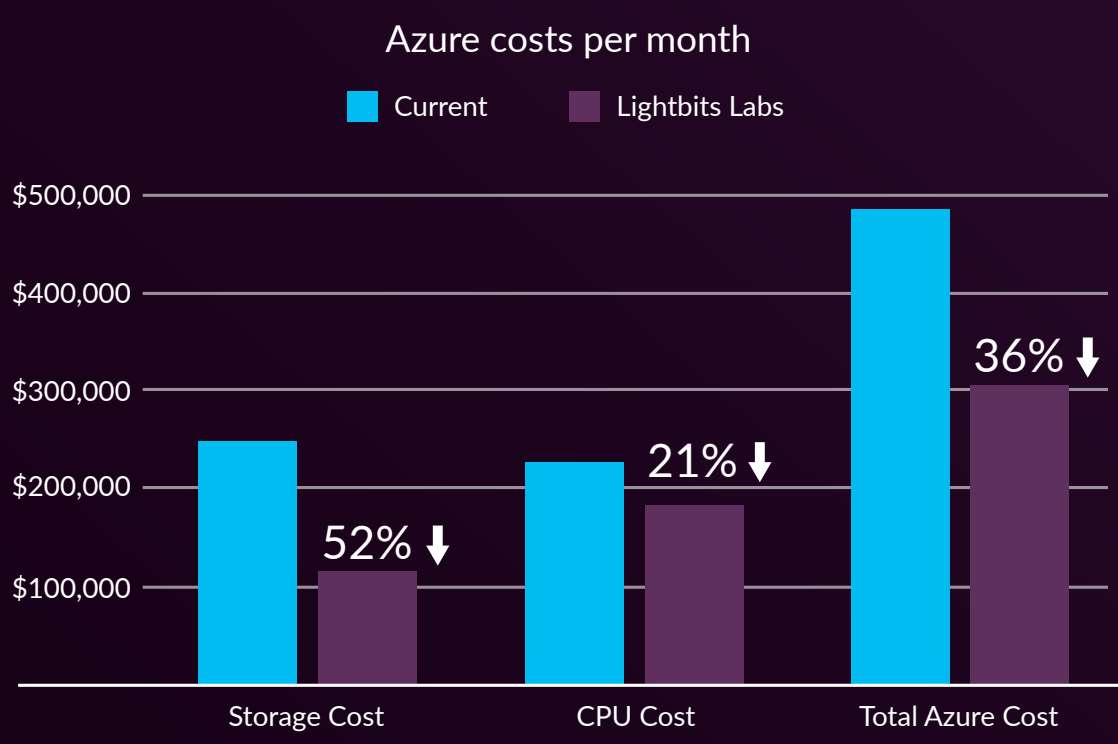

2 PB of Azure internal Premium SSD

The Results

36% lower TCO with a platform that scales efficiently

The company was wasting both storage and CPU resources to get the performance they needed. With Lightbits, they can also boost storage utilization and reduce software licensing costs for a 36% overall lower TCO.

↓ 36%

Lower TCO with Lightbits

↑ 50%

Increase in storage utilization

↓ 15%

Reduction in software licensing

The Guarantee

Superior cloud storage performance for less than half the cost

Let Lightbits prove cloud value with you in three steps—and with a risk-free guarantee.

↑ Superior cloud storage performance

↓ 50% lower cloud cost

STEP ONE
Schedule a 30-minute cloud assessment

- Assess key application workloads running on AWS or Azure
- Predict potential cost savings and performance improvement

STEP TWO
Purchase Lightbits Cloud Quickstart Kit

- A refundable investment of \$25k-\$50k gets you started
- We will test & optimize your cloud workloads with Lightbits and deliver a comprehensive Cloud Quickstart Report

STEP THREE
Deploy Lightbits into production or get a full refund

- Deploy: Full value of Cloud Quickstart Kit will be credited
- Decline: Receive full refund if we fail to meet our guarantee

Get started with your risk-free guarantee today.
