

4 Strategies to Beat **NAND** Shortages

▶ Long Lead Times

▶ Rising Flash Prices

▶ Hardware Dependent Storage

The Answer isn't more flash—it's better use of the flash you already have.

Q1 2026 NAND
Price Increase

+33% to
38% (QoQ)

2026 NAND Market
Revenue Growth

+112% (YoY)

Availability

The 2026
capacity is largely
sold out

Lead Times

Up to 12
months for
specific models

From this...

To this.

Traditional Storage

- ✓  Proprietary Hardware
- ✓  Stranded Capacity
- ✓  Short SSD Lifespan
- ✓  Supply Chain Risks

Disaggregated SDS

- ✓  Hardware Independence
- ✓  Full Flash Utilization
- ✓  Extended Media Life
- ✓  Resiliency and Agility

The bottom line...

Some storage platforms
solve one or two of
these problems.

Lightbits disaggregated,
software-defined
storage solves all four.

✓ Hardware
and vendor
independence

✓ Software-driven
performance density
and data efficiency

✓ Seamless use of mixed
SSD vendors, capacities,
and NAND types

✓ Intelligent Flash Management
that extends SSD lifespan well
beyond conventional limits

Experience the Difference Lightbits
can make in your Data Center
